AlCuMet, Inc. is an industry leader in precision investment castings. They produce alloy castings to a diverse array of industries ranging from medical hardware to aerospace components. This project involved the expansion of AlCuMet's existing manufacturing facility located in Londonderry near the Manchester Airport. Site work included the construction of a new storm water detention basin and drainage facilities; and a new paved parking & loading areas. Offsite improvements included the construction of a new cul-de-sac on Planeview Drive. Northpoint provided all necessary civil and site design including grading & drainage, site landscaping, erosion control, and roadway plan & profile, and secured all local and state permits
